● Common Problems and Solutions

- No display, check the power cord and turn the rocker switch to on

- Touch is not sensitive: Check whether the machine is grounded. The power cord needs to be grounded.
- Wi-Fi cannot connect: Confirm that the Wi-Fi signal is normal and reset the network settings.

WiFi signal is weak: Check whether the WiFi antenna pole is installed and tightened, and whether the antenna is facing the direction of the router.

● Safety precautions

- Do not open the back cover without permission.
- Do not use in high temperature or humid environment.
- Please disconnect the power supply when not in use for a long time.

● After-sales service

- This product has a 1-year warranty.
- For repairs or technical support, please contact official customer service.
